

# How to reset your A/C

allure

1. Locate your breaker panel  
(usually located behind the bedroom door)

2. Look for the  
Panel Schedule

1)	1P-20A	Lighting	2)	1P-20A	Lighting
3)	1P-20A	R-Living Room	4)	1P-20A	R-Master Bedroom
5)	1P-20A	R-Bedroom/Doorbell Xfmr	6)	1P-20A	R-Dining
7)	1P-20A	R-Master Bath	8)	1P-20A	R-Bath
9)	1P-20A	R-Kitchen	10)	1P-20A	R-Kitchen
11)	1P-20A	R-Kitchen Refrigerator	12)	1P-20A	R-Kitchen Microwave
13)	1P-20A	R-Kitchen Dishwasher	14)	1P-20A	R-Telecom/Booster Fan
15)	1P-20A	R-Disposal	16)	1P-20A	Smoke Detectors
17)	2P-30A	R-Washer/Dryer	18)	2P-30A	Water Heater
19)	---	-----	20)	---	-----
21)	2P-50A	R-Range	22)	2P-40A	ACU-4
23)	---	-----	24)	---	-----
25)	PFB		26)	PFB	
27)	PFB		28)	PFB	

3. Find the  
ACU-4 breaker

4. Reset the breaker:

In order to properly reset the breaker, you must turn switch to off position all the way, and then put it back to "ON". If you switch it on without turning it off first, it will not properly reset.

5. Please, give 15 minutes for A/C to start up.
